This LED Vapor Proof fixture is a rugged one, designed for ambient lighting in indoor or semi-open environments. It is ideal for indoor and outdoor parking zones, gas stations, warehouses, canopies, and other areas that may see exposure to humidity or moisture while requiring high quality light. Output is adjustable from 10-150 foot candles.

The precision-fitted polycarbonate lens and durable ABS plastic housing construction ensure long and reliable service in a wide variety of applications.

The rated life of the unit is 90,000 hours, providing many, many years of maintenance free service.

Features

- 90,000 hours per DOE testing at 107+ lumens per watt. (lifetime varies by model)
- 10 Yr. Manufacturers registered warranty
- Maintenance Free
- Return on Investment between 18 and 40 months
- Green Product

Environmental

- Contains no Mercury or Lead
- Does not produce UV Rays
